DEATH OF MRS. CROCKER

A Sudden Strike of Apoplexy Results Fatally.

IN USUAL HEALTH THE DAY BEFORE

Only a Few Minutes Before Death Her Physical Was No Reason For Immediate Apprehension—The End Fatal.

SAN FRANCISCO, Oct. 27.—Mrs. Charles Crocker, widow of the late Charles Crocker, of the Southern Pacific Railroad Company, died suddenly this evening of apoplexy. Her maiden name was Mary A. Denning. She was born at South Bend, Ind., and at the time of her death was sixty-one years and 11 months of age. She was married to Charles Crocker in 1851, coming to California with her husband in the same year. They lived in Sacramento twenty-three years, moving to this city in 1874.

Mrs. Crocker was apparently in her usual health until last evening, just after her return from a carriage ride in the park, where the apoplectic disorder first showed itself. Her second son, George Crocker, and Mrs. Wright, of Sacramento, an old friend of the family, were with her when she died.

Mr. and Mrs. William H. Crocker left town in their special car last night on a journey of pleasure to Mount Shasta and it was at the moment their car left Oakland that the apoplectic disorder first showed itself. Mrs. Crocker was indeed so far from anticipating any indisposition that she had promised to be present at the proposed Pacific Union vs. Bohemian baseball match Friday afternoon, and even after Dr. Fick reached the house about 8 o'clock last night her illness was not thought important. She slept well last night and even at 3 o'clock this afternoon she was arranging to go out to-morrow.

At 3:45 this afternoon she was in entire possession of her faculties and the physician himself did not at the time perceive any reason for immediate apprehension. The end, however, came about 4 o'clock and was as painless as it was unexpected.

Mr. and Mrs. William H. Crocker were at once advised by telegram of her bereavement, and replied that they would be in town early this morning. Colonel Charles F. Crocker is now in Paris, and Mrs. C. B. Alexander, daughter of the deceased, is in New York.

In religious belief Mrs. Crocker was a Presbyterian and was a liberal supporter of her church. By the terms of her husband's will half his estate was divided among his children, the other half being bequeathed, without restriction, to his widow. It is understood in making his will he entrusted Mrs. Crocker with the distribution of so much of his property as he thought his children would not need. Her charitable contributions at times previously, large were soon increased. It is estimated she gave over \$50,000 to various charitable institutions last Christmas, but so quietly that few people were aware of it. What final disposition she has made of the property is not yet known. Arrangements for the funeral will be made as they develop.

The oldest son is Colonel Charles F. Crocker, second vice-president of the Southern Pacific Company, who is at present in Europe. The second son, George Crocker, who was the only one of the family present at the death, is a resident of a large estate in land and cattle until recently. The third son is Wm. H. Crocker, president of the Crocker-Woolworth bank. The only daughter is Mrs. C. B. Alexander, of New York, who spent the summer in California.

A RASCALLY CLERK.

He Gets Into a Scrape and Gives the Name of His Employer.

SAN FRANCISCO, Oct. 27.—A Newark, N. J. dispatch was printed here this morning stating that Samuel Magnus had been arrested there for a crime, and that he was a train and for certain misdemeanors. The dispatch gave a pathetic story in regard to Magnus's career. He said that his father was once mayor of San Francisco. In view of his social standing the court gave him thirty days in the county jail.

An investigation of the matter shows that the young lad gave out a story made of whole cloth. The records of the city and county offices show that no man named Magnus was ever in San Francisco.

A friend of the popular young business man of that name, formerly of this city, stated in reply to a question, "I know Samuel Magnus. He left here a month ago, and is now doing business at Spokane Falls. He is not the man the dispatch says about. The name of the young man who clerked for him and swindled him out of a lot of money. His name is Solomon. The name of the man who was given for him. He had better not return to this city. If he knows what is good for him."

The speaker then showed a recent letter from Samuel Magnus, dated Spokane Falls.

THE PACIFIC RAILROAD COMMITTEE.

They Are Elected by Interference by the Nevada Senator.

LOS ANGELES, Oct. 26.—The members of the senatorial committee on Pacific railroad spent to-day at Santa Monica where they were the guests of Senator and Mrs. John P. Jones. The party were entertained at a banquet at the Nevada senator's residence this evening.

Senator Stanford, who was slightly indisposed, did not attend the banquet, but sought his private car for quiet and rest. While there he received a telegram announcing the death of Mrs. Charles Crocker in San Francisco this afternoon. The senator was greatly affected by the sad tidings.

The party left Santa Monica at 9:30 for Los Angeles, arriving here at 11:30. They leave here at 5 o'clock to-morrow morning for the north. At Lathrop they will switch and proceed to Sacramento, going thence to Portland, Oregon. The Senators expect to be in Washington, D. C., by November 15.

DIED IN THE DESERT.

Finding of the Mutilated Remains of the Young Los Angeles Lawyer.

San Diego, Oct. 27.—Four miners from the Colorado mines have reached camp, and state that on the desert they found the body of young Singletary, the young Los Angeles lawyer, who met death in the desert some months ago by being deserted by his companions. The poor fellow's remains were found in a cave and half from water. He evidently died in a frenzy of agony as his hat was in one place, and his overalls shirt and boots were scattered in different places. The body was completely unrecognizable, the desert heat having prevented decomposition and preserved the corpse perfectly. Corvettes had mutilated the legs somewhat, but otherwise the corpse is better preserved than an Egyptian mummy. They buried him where he was found.

SAN FRANCISCO THEATERS.

Dramatic Events of the Coming Week—Fragrant for the House of Commons.

SAN FRANCISCO, Oct. 27.—Miss Roxina Vokes has filled the Baldwin theater every night during the past week despite a heavy downpour of rain. During the coming week Miss Vokes will present "The Old Munchausen," "The Great Rider," "A Painter's Boy," and "The Great Rider." Her engagement consists of four weeks and at each performance three separate pieces will be given with a change of bill every week.

Nellie McHenry and her company will give "The Humming Bird" at the Alcazar this week.

At the Hub Street "Little Puck" will be played by Frank Daniels.

Beginning to-morrow night a dramatization of Archibald Claverling Gunter's romance "Mr. Barnes, of New York," will be

VICTIMS OF THE WAVES

Ravages of a Storm on the Atlantic Coast.

SEVERAL VESSELS HAVE BEEN LOST

Helpless Sailors, One by One, Swept Away by the Sea in Sight of a Life-Saving Crew Who Were Powerless to Aid Them.

NORFOLK, Va., Oct. 27.—The schooner George T. Simmons of Camden, N. J., was wrecked off False Cape in a storm last Wednesday night. When the vessel was first seen it was broken by the life-saving crew Thursday morning 60 men were landed in the rigging. One by one the doomed men had been swept away in the sea. Last night two were left and at sunset this evening only one remained, and undoubtedly will be found dead in the morning. The life-saving crew watched an opportunity to go to the rescue, but the surf has run too high for the boat to make an attempt at relief.

A large three-masted schooner flying a flag of distress, is ashore three miles outside of Oregon Inlet. Assistance will be sent from here.

The schooner Lizzie Haynes, lumber laden, from Savannah to Baltimore, has been wrecked on Bodie's Island. The captain and steward were saved. Five men were drowned. The vessel is a total loss, and the cargo is washed up on the beach. The schooner A. E. Blackman rolled over 200 miles at sea. The captain, Charles Edwards, by the aid of a cork jacket, swam to shore and was rescued. The remainder of the crew were lost.

THE HOWARD TURNER FEUD.

Stories of Its Origin as Given by Both Parties.

LOUISVILLE, Oct. 27.—Judge Lewis is in possession of the Madison court house. He has a large number of men and is confident of capturing Howard and his party. An account of the feud has been received here, giving the stories of both sides. Howard claims that the trouble originated in the killing of William Howard in 1882, and that William Howard, under indictment for killing William Turner in a quarrel ensuing, cannot get a fair trial, and therefore resists arrest. The Turner side resents by John Lewis, claim that Robert and William Turner were murdered without cause, and that William Howard was brought to trial. The Howards greatly outnumber the Turners and can secure justice at least. Judge Lewis is no relative of the Turner and was not in the fight only in the discharge of his duty.

ADVICES FROM MEXICO.

An Explanation Demanded—Passage of the Mexican Colonization Bill.

CITY OF MEXICO, Oct. 27.—The press states that the Mexican government demand of the United States an explanation of Minister's remarks referring insultingly to Mexico and presenting his credentials as a minister to Costa Rica. The negro colonization bill has passed the first reading in the senate. The bill will be passed and approved, but the negroes will be sent to Mexico as they are not popular here, and besides the lands set aside for the most numerous in the country. The official journal publishes telegrams excluding them from the United States governments referring to alleged insults offered to Mexico by Mr. Minner in the course of his mission to Costa Rica. Mr. Minner disavows the words of Mr. Minner.

THE MANHATTAN ISLAND FURCHIE SE.

About \$24 Was Paid the Indemnity for New York's Site.

NEW YORK, Oct. 27.—At a meeting of the New York Genealogical and Biographical Society held last night General James Grant Wilson delivered a paper entitled "A Search in Holland for the dead of Manhattan Island."

General Wilson said that while on a visit to the Hague last summer he was informed that a paper supposed to be the deed of Manhattan Island was in the hands of a Dutchman. Upon investigation it was found that this paper was not what it was supposed to have been, but a letter which had been purchased from the red men for 50 guilders or thereabouts. This averaged to about the fifth of a cent per acre. This letter was dated October 5, 1624, and signed by P. Schaeznan.

TROUBLE IN NO MAN'S LAND.

The Settlers Burn the Range of the Scotch.

KANSAS CITY, Oct. 27.—A special from Kansas City, says S. M. Foreman arrived here to-day from Beaver City, Mo. He reports a bad state of affairs in the central district. The Turner side resents by John Lewis, claim that Robert and William Turner were murdered without cause, and that William Howard was brought to trial. The Howards greatly outnumber the Turners and can secure justice at least. Judge Lewis is no relative of the Turner and was not in the fight only in the discharge of his duty.

Hearing no tidings of him his relatives are becoming alarmed. Sheriff McLean dispatched a messenger to his brother, who lives near Almolfo. He will go to Sprague at once.

Upon plausible excuses he has taken counts on his own account, and by getting in debt to material men, he has enabled to escape. The Oregonian.

Portland, Monday, Oct. 28.

Portland merchants are interested in the failure of a dry goods man at Colfax to the extent of \$10,000.

Mr. Lantry announces that she has been America's long farewell. America will probably be able to stand it.

The judge, 10 years old, and his little sister, 10 years old, are in the Colfax, near the upper Columbia, nearly killing a young woman.

It turns out that the Kansas Pacific is not included in the Union Pacific and Northwestern deal. There is a nest egg for a new Pacific coast combination.

The original purchasers bought Manhattan Island for \$21, about what the present inhabitants are willing to subscribe for the Grant monument or the World's fair.

Trouble is said to be brewing between the incoming settlers and the old residents on the Great Sioux reservation, near Pierre, South Dakota, as a perpetual nuisance on every Indian reservation.

Grover Cleveland has not had a political residence for five years, and has lost the habit of voting. It is reported that he is not registered for the New York election, which occurs in a few days.

The gambler Petri has been finally accepted, but the contractors pay a penalty of \$40,000 for delay. They have made no effort to expedite the work on the Petri, and will probably bid on no more vessels.

The New Orleans grand jury is making thorough work of the investigation of the state bond sink. Fifteen or twenty indictments are said to have been returned against persons associated with Treasurer Burke in the enterprise.

Something like anarchy exists in the public land strip north of Texas, known as No Man's Land. Settlers are despoiling the property of cattlemen, and great losses are probable. The government should take some action for the protection of property.

For news of the Prussia, and the crown prince of Greece, were united in marriage in Athens yesterday. The description of the wedding ceremonies and the gorgeous pageantry accompanying the event makes interesting reading, even at this distance.

All the new states are impatiently awaiting the settlement of the Montana trouble. The president will not issue his proclamation declaring the others admitted until Montana is ready, unless the returns from that state are satisfactorily delayed. So the others all wait to prod up Montana.

There is quite a large crop of Cronin suspects just at the present time in this country. Also a large number of men, and occasionally one in women's clothes, who look like Cronin. So many indeed, that one cannot help thinking that some people seek notoriety when they can never hope to gain fame.

The Hatfield McCoy serial tragedy now running with the scenes alternately laid in Kentucky and West Virginia, is longer by another chapter, which chronicles the fighting of Green McCoy and Milton Hatfield, the two men concerned in the killing of a young man and his bride, who belonged to the opposing faction.

Census Sherman, of Liverpool, finds in England a well-conducted system of cottage homes for pauper children, which may well be taken as a model by any nation. In these homes and in the good work they will do for the boy to the secret prevention of crime. There is another way of preventing crime than educating children out of it.

The young man in Philadelphia, arrested as Tascott, the murderer of Billingtona Shell, makes the statement that although he is not the murderer, if taken to Chicago he will be convicted and hung because he looks like him. It is probable there is a slight resemblance and upon the strength of this the young man is trying to get a free railroad ride from Philadelphia to Chicago.

Prince Hatfield will be married to Miss Huntington to-day. Some interesting reading from the columns of the Paris Gil Blas is furnished for the wedding breakfast. Before wondering why C. F. Huntington ever admitted such a notorious rascal and blackleg to his family it may be well to recall the fact that Miss Huntington is the daughter of the railway magnate only by adoption.

No Gibbs from Day to Day. The detective who has been looking everywhere that Gibbs was has found several other people, among them the dark-skinned Canadian who shot an excellent shot above Arlington, but he found nothing of the fugitive. The officers are said to be still sanguine, thus newly illustrating the eternity of the fountain of hope in the human breast.

According to the estimate of the president of the Boys' and Girls' National Home Association, of Washington, D. C., there are \$9,000 by tramps in the United States. He advocates a regulation system by which these tramps of the East might be employed by the farmers. The difficulty in the way of this plan is that farmers do not want unreliable, thieving boys about them, and as thousands of these youthful tramps smoke, careful men cannot afford to have them about their farms and haystacks.

Vice President Oakes of the Northern Pacific presides Seattle equal wheat tramps, and the other lines of off from the Pacific coast by the Santa Fe route, the Burlington, Rock Island and St. Paul are left out in the cold. They would like to get in on the combination with the Manitoba and help raise the money necessary to complete the projected line to the Pacific coast for the benefit of all the lines interested.

A meeting of the Washington Pioneer Association will be held at Olympia for the purpose of joining in the celebration of the admission of Washington into the Union of states upon the day that may be designated for the inauguration of a new president. said day has not been and cannot be determined upon until after the president has issued his proclamation, members of the association will take notice of the dispatches and announcements which will be published naming the day of such inauguration, as upon the same is determined upon. All pioneers are cordially invited to be present and participate in the ceremonies of the occasion.

ASTORIA ITEMS.

Astoria has contributed nearly \$10,000 to Portland and the big exposition in the past month.

Seaside Lodge, No. 12, A. O. U. W., celebrated its twenty-first anniversary last evening.

The aggregate of the salmon pack on this coast will be to their list of 1888-89 to make the figures practically similar.

El Corral killed an elk near Skamawawa last week, the horns of which were six feet long, eight inches in diameter at the base, and weighed over 100 pounds.

The Chinese exchequer was heavily returned yesterday. F. H. Pinder, returning from Seattle, gave his box containing \$10,000, and the same amount in Chinese to the Chinese exchequer.

Contractor Barker has 800 men on grading on the line of the Astoria & South Coast railroad, southeast from Sackett's mill. He is doing the work more than a mile from Portland to-night, and to go to work Monday.

Everything is booming right along on the line, and the good weather favors the progress of the work.

While digging a trench for a house, which is on the site of the old original Astorian, a large number of bones were found.

As a result of the discovery of the bones, the building of the house has been delayed for some time.
